

## News Release

### **ORISTEL APPOINTED AS PREFERRED PARTNER OF AIRSPAN FOR BROADBAND WIRELESS & 4G LTE SYSTEMS DISTRIBUTION**

#### ***Partnership taps on fast growing market for 4G LTE in Asia Pacific***

**Singapore, 17 June 2014** - Singapore Technologies Electronics Limited (ST Electronics) announced that its telecom systems integration arm, OrisTel Systems Pte Ltd (OrisTel), has been appointed by Airspan Networks, Inc. (Airspan) as its preferred partner for the distribution of 4G LTE broadband wireless systems products to telecom service providers and vertical markets such as smart utilities, transportation and public safety in the Asia Pacific region.

OrisTel will leverage the synergies derived from ST Electronics' extensive customer base of its broadband satellite communications, transportation, utility and other government market customers in the Asia Pacific region and Airspan's pioneering suite of 4G radio access network products to deliver high-speed broadband solutions in the Asia Pacific region.

*"We are very excited about our new partnership with OrisTel Systems which will enable us to better address the fast growing market for 4G LTE in the Asia Pacific region. Oristel's and ST Electronics' significant knowledge, presence and system integration capabilities in the region together with Airspan's leading edge award winning LTE offering will bring unrivaled value proposition for both the vertical market and telcos looking to deploy 4G LTE efficiently."*

**~ Henrik SMITH-PETERSEN**  
**President Global Sales, Airspan Networks Inc.**

*"OrisTel will commit resources and expertise leveraging the strong support from ST Electronics group to grow the market for Airspan products in the Asia Pacific region. Airspan is a leading provider of 4G LTE broadband wireless access networks and we are confident that we will be able to offer the best solutions to our customers. "*

***~ GOH Wai Pheng  
SVP/General Manager, OrisTel Systems &  
Deputy President, ST Electronics (Satcom & Sensor Systems)***
